

OLIGONUCLEOTIDE FOR DETECTING SALMONELLA AND  
METHOD OF DETECTING SALMONELLA

5

ABSTRACT OF THE DISCLOSURE

10       The present invention provides oligonucleotides for  
detecting Salmonella toxin gene invA mRNA and stn mRNA  
which oligonucleotides specifically bind to invA mRNA or  
stn mRNA at a relatively low temperature (for example,  
41°C) and at a constant temperature, and a process of  
amplifying Salmonella toxin gene invA mRNA or stn mRNA  
15       and a method of detecting the same using the  
oligonucleotides.
